YOUR INVESTMENT. OUR IMPACT.

Meet Meadow, a courageous four-year-old battling leukemia and its complications after a stem cell transplant. Despite spending much of her young life in hospitals and traveling for treatments, the moment Meadow received crayons from The Crayon Initiative was transformative.

Our crayons opened a door to therapeutic arts offering her a means to express herself, unleash her creativity, and transcend her immediate surroundings. Meadow's story illustrates the remarkable impact of a crayon, showing how these tools can empower children to communicate their feelings, imagine freely, and discover moments of joy amidst adversity.
